

Python Prep 7

#1

```
numbers = [1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11]
even_count = len(list(filter(lambda x: x % 2 == 0, numbers)))
odd_count = len(list(filter(lambda x: x % 2 != 0, numbers)))
```

```
print("Even numbers: ", even_count)
print("Odd numbers:", odd_count)
```

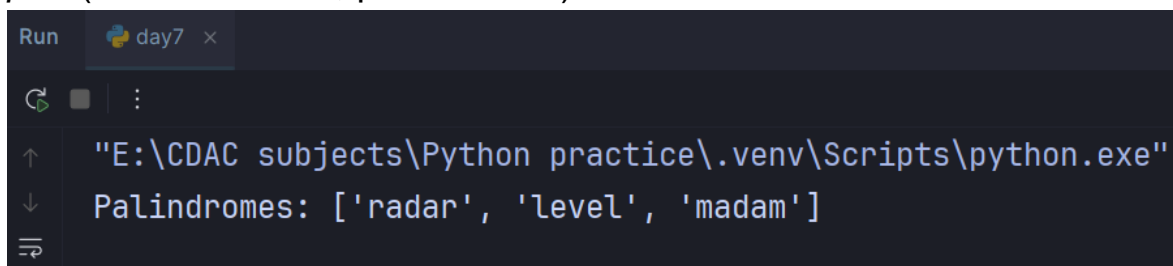

A screenshot of a Python IDE terminal window. The window has a dark background and a light-colored border. At the top, there is a tab labeled "day7" with a close button. Below the tab, there is a toolbar with a green play button, a square button, and a vertical ellipsis. The terminal area shows the output of the first script: "Even numbers: 5" and "Odd numbers: 6". The text is white and centered in the terminal area.

```
Run day7 x
"E:\CDAC subjects\Python practice\.venv\Sc
Even numbers: 5
Odd numbers: 6
```

#2

```
strings = ["radar", "hello", "level", "world", "madam", "python"]
palindromes = list(filter(lambda s: s == s[::-1], strings))
```

```
print("Palindromes:", palindromes)
```

A screenshot of a Python IDE terminal window. The window has a dark background and a light-colored border. At the top, there is a tab labeled "day7" with a close button. Below the tab, there is a toolbar with a green play button, a square button, and a vertical ellipsis. The terminal area shows the output of the second script: "Palindromes: ['radar', 'level', 'madam']". The text is white and centered in the terminal area.

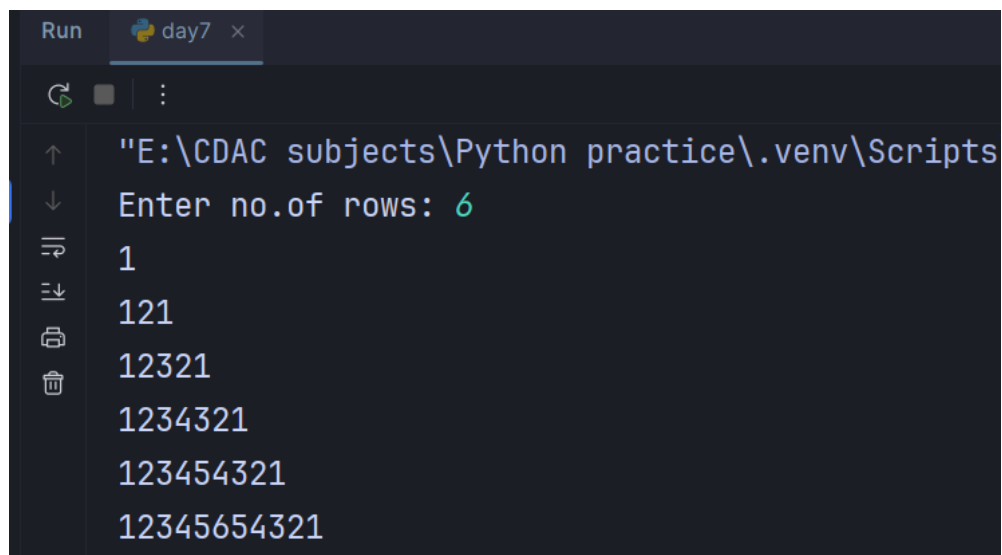

```
Run day7 x
"E:\CDAC subjects\Python practice\.venv\Scripts\python.exe"
Palindromes: ['radar', 'level', 'madam']
```

#3

```
rows = int(input("Enter no.of rows: "))
```

```
for i in range(1, rows + 1):
```

```
    print("".join([str(j) for j in range(1, i + 1)] + [str(j) for j in range(i - 1, 0, -1)]))
```

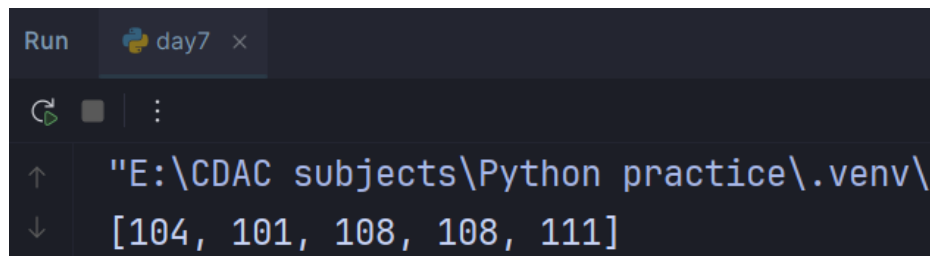

The screenshot shows a terminal window with a dark background. At the top, there's a tab labeled "day7" and a "Run" button. Below the tab, there's a green circular icon with a white arrow. The terminal output shows the file path "E:\CDAC subjects\Python practice\.venv\Scripts", followed by the prompt "Enter no.of rows: 6". The output then displays a diamond pattern of numbers: 1, 121, 12321, 1234321, 123454321, and 12345654321.

```
#4
```

```
text = "hello"
```

```
result = list(map(lambda x: ord(x), text))
```

```
print(result)
```
