

PYTHON Placement prep test

#1

```
a=input("first name :")
```

```
b=input("last name :")
```

```
print(b,a)
```

A screenshot of a terminal window with a dark background. The prompt is "E:\CDAC subjects\Python practice\". The user enters "siddharth" for the first name and "tiwari" for the last name. The output is "tiwari siddharth". At the bottom, it says "Process finished with exit code 0".

```
"E:\CDAC subjects\Python practice\  
first name :siddharth  
last name :tiwari  
tiwari siddharth  
  
Process finished with exit code 0
```

#2

```
import calendar
```

```
y = int(input("year"))
```

```
month = int(input("month"))print(calendar.month(y,month))
```

```
"E:\CDAC subjects\Python practice\.venv
year2026
month1
January 2026
Mo Tu We Th Fr Sa Su
    1  2  3  4
  5  6  7  8  9 10 11
12 13 14 15 16 17 18
19 20 21 22 23 24 25
26 27 28 29 30 31
```

#3

from datetime import date

d1 = date(2014,7,2)

d2 = date(year=2014,month=7,day=11)

```
print((d2-d1).days)
```

A screenshot of a Python IDE terminal window. The window title is "Siddharth Tiwari 052 placement prep". The terminal shows the output of a Python script: "9 days". Below this, it says "Process finished with exit code 0".

#4

```
l = input("enter a letter :")
```

```
if l in "aeiou":
```

```
    print("vowel")
```

```
else:
```

```
    print("consonant")
```

A screenshot of a Python IDE terminal window. The window title is "Siddharth Tiwari 052 placement prep". The terminal shows the output of a Python script. It prompts "enter a letter :a" and then outputs "vowel".
