1
212
32123
4321234
543212345
Process finished with exit code
```

#4

```
number = input("Enter a number: ")
words = {'0': 'Zero', '1': 'One', '2': 'Two', '3': 'Three', '4': 'Four',
        '5': 'Five', '6': 'Six', '7': 'Seven', '8': 'Eight', '9': 'Nine'}
```

```
for i in number:
    if i.isdigit():
        print(words[i])
```

The image shows a terminal window from a Jupyter Notebook. The title bar at the top indicates the file is named 'day2prep'. The terminal output shows the execution of a Python script located at 'E:\CDAC subjects\Python prac'. The script prompts the user to 'Enter a number:' and the input '123' is shown in green. The script then prints the words 'One', 'Two', and 'Three' on separate lines. Finally, the terminal displays the message 'Process finished with exit co'.

```
run day2prep x  
"E:\CDAC subjects\Python prac  
Enter a number: 123  
One  
Two  
Three  
Process finished with exit co
```
